

CONNECTED. POWERFUL. RUGGED.

MW810 MOBILE WORKSTATION R2.0

A police officer receives dispatch information, with audible directions and the incident location clearly marked on a map. An incident commander keeps track of firefighter locations and vitals as they search a burning apartment building. An EMS crew submits a report without leaving their vehicle. Detectives watch streaming video of gang members loitering, while parked discreetly two blocks away. A deputy scans the plates of 300 parked cars in minutes — without slowing down.

More and more first responders and field personnel are using their vehicle as an office. Aided by wireless broadband and motivated by the need to keep up with information and their workload, they perform more tasks in the vehicle, from report writing to video surveillance. This requires more than fast wireless broadband and the latest software — they also

need a connected, powerful, rugged and ergonomic workstation that is designed for the challenges of their work day and the rigors of their environment.

The fully rugged Motorola MW810 Mobile Workstation R2.0 provides reliable, cost-effective wireless connectivity and computing power for mission critical applications.

SPECIFICATIONS

COMPUTER

Unit offers powerful computing options so you can support more applications and find answers faster.
Intel 3rd Generation Core i7-3610QE, Quad Core, 2.3GHz, 6M Cache (Option) Intel 3rd Generation Core i5-3610ME, Dual Core, 2.7GHz, 3M Cache (Standard) Intel Celeron B810, Dual Core, 1.6GHz, 2M Cache (Option)
Intel® Panther Point PCH QM77 with integrated video controller
4GB DDR3 DRAM 1600MTs Single Slot (Standard). Expandable to 8 GB Dual Slot (Total usable memory may be less, depending on configuration)
Heated removable 500GB Hard Drive with 3-dimensional shock absorbers (Standard) 256GB Solid State Drive (Option, instead of Hard Drive) Also: 64GB internal SSD (mSATA) on main board (Option in addition to, or instead of, removable HD or SSD
TPM 1.2 (Trusted Platform Module) integrated in CPU Optional internal Smart Card Reader available in 12.1" displays
Microsoft Windows® 7 Professional, Service Pack 1 (32 bit and 64-bit versions available)

COMMUNICATION AND EXPANSION PORTS

MW810 R2.0 offers a rang	e of communications modules and expansion ports, supporting both wired and wireless peripherals.
Display Interface	Primary port supports DVI or RGB, Secondary port support DVI/HDMI. Both with ports via 60 pin connector
USB Ports	Up to 2 x USB3.0 (Depends on Expansion type) and up to 4 X USB2.0 (Depends on Expansion type)
Bluetooth®	Optional Bluetooth module V2.1 plus EDR (Enhanced Data Rate). Available only with 12.1" displays.
ExpressCard	1 ExpressCard slot, on front of CPU
Auxiliary Port	26 pin connector. 4 Programmable General Purpose I/Os can be set to input or output, working at 5V or vehicle battery voltage. Ignition sense input, plus vehicle speed and direction inputs (latter two for use with Dead Reckoning GPS). Configurable Output voltage (Battery voltage output to 5V) DC output (1A) for relay contact wetting voltage.
Audio	Line out (non-amplified) for external speaker; external microphone in (non-amplified)

I/O EXPANSION BOARD OPTIONS

MW810 R2.0 offers multiple expansion board options, so you can add more ports for external modems, video cameras, or other vehicle peripherals as needed.

DISPLAY OPTIONS

MW810 R2.0 displays feature outstanding touchscreen capabilities, user programmable buttons, emergency button, and setting controls. The MW810 R2.0 CPU with Comm and Video or ALPR expansion board options support the dual display feature.

MW810 R2.0 12.1" Displays	12.1" Standard Brightness (500 NIT) XGA, with RGB or DVI interfaces. Resistive tempered glass touchscreen. Contrast Ratio (CR) 1: 700. Viewing Angles H=160, V=160 at CR ≥10. 8 programmable buttons with backlit insets so you can custom label user functions. Speaker, 1W. 3 USB 2.0 ports (1 keyboard, 2 general use).
	12.1" High Brightness (1500 NIT) XGA, with RGB or DVI interfaces. Resistive tempered glass touchscreen. Contrast Ratio (CR) 1: 600. Viewing Angles H=160, V=140 at CR ≥10. 8 programmable buttons with backlit insets so you can custom label user functions. Speaker, 1W. 3 USB 2.0 ports (1 keyboard, 2 general use).
MW810 8.4" Display	8.4" High Brightness (800 NIT) SVGA, with RGB or DVI interfaces. Resistive tempered glass touchscreen. Contrast ratio (CR) 1:450. Viewing Angles H=120, V=100 at CR ≥10. 6 programmable buttons with insets. Speaker, 1W. 2 USB 2.0 ports (1 keyboard, 1 general use).

Embedded Reader Board USB. FIPS 201 Certified.

INTERNAL RADIO OPTIONS AND COMMUNICATIONS PROTOCOLS

One internal PCI Express Mini Card slot allows for a Wireless Local Area Network option, plus two available wireless Wide Area Network slots, so you can stay in touch with remote applications via multiple networks. Our CPU with any WLAN option ships with three antenna connector ports. Antennae are sold separately, so customers may reuse existing MW antennae with proper connectors.

ports. Antennae are sold separa	tely, so customers may reuse existing lvivv antennae with proper connectors.
WLAN Option	Intel® Ultimate N WiFi Link 6300 (Quad-mode 802.11 a/b/g/n). Wi-Fi CERTIFIED®. 3 antenna ports available.
WAN 1 Slot Options	MC7750 LTE Band 13/3G module from Sierra Wireless. Supports either of the following based on firmware load: LTE Band 13, or CDMA IS-856 (1xEV-DO Revision A) and CDMA IS-2000 networks. Two antenna ports available. Additional WAN options will be available, and will vary by country; contact your local Motorola Solutions representative for details.
WAN 2 Slot Options	CPUs support dual-WAN radio board plus internal modem option supporting Band 14 (Public Safety) LTE. Two antenna ports available. Availability of factory option as well as field upgrade kit will vary by country; contact your local Motorola Solutions representative for details.
	eceiver or internal Dead Reckoning GPS receiver to help pinpoint your vehicle location. Dead Reckoning option ince even where GPS reception is hindered.
GPS Options	SiRF IV Module option: supports NMEA 0183 (National Marine Electronics Association) protocol. Or Trimble Lassen iQ GPS Module option: supports NMEA 0183, TSIP (Trimble Standard Interface Protocol), TAIP (Trimble ASCII Interface Protocol), and DGPS (Differential Global Positioning System) protocols.
Dead Reckoning GPS Option	Sensor-based GPS Receiver, containing the U-Blox LEA 6R GPS positioning engine. Position output in NMEA 0183 (National Marine Electronics Association) and UBX (u-blox proprietary binary) protocols. Requires vehicle sensor signals for speed and direction — order an Auxiliary Cable accessory to connect CPU Aux Port to vehicle sensors.

ELECTRICAL ENVIRONMENT

Fully operating in 12V and 24V car battery systems without converters, so you can install in a wider range of vehicles. Can also be configured to operate using a 9V sustainable power source. Low voltage cranking support. Graceful shutdown at low voltage thresholds.

Input Voltages	Wide input voltage range, 11-33VDC, with no loss of functionality
