

Motorola Two-Way Portable and Mobile Radio

Accessory and Battery Catalog

For Discontinued Two-Way Radio Models

Motorola Quality...

exceptional dependability

You already depend on Motorola two-way radios for mission critical communications.

You can continue to rely on Motorola Original® accessories to provide custom radio solutions.

You likely chose your Motorola two-way radios for their ease of use and exceptional reliability — certainly a sound decision. Choosing Motorola Original® accessories for your radios is also the right call to make.

For starters, every Motorola Original® accessory is performance-matched for Motorola radios — designed, built and rigorously tested to the same quality standards. So you can be sure that every product in this catalog will perfectly complement your radio's performance.

What's more, insisting on Motorola Original® accessories can help increase productivity.

That's because you can count on every accessory to do its job time after time. If you take a chance on a mismatched antenna, or an inferior microphone, your radio may not perform at the moment you have to use it.

We offer a full collection of proven Motorola Original® accessories for your important and critical communication needs. You'll find remote speaker microphones for more convenient control. Carrying cases for ease when on the move. Earpieces to ensure privacy. Headsets for hands-free operation. High-capacity batteries to extend communication time, and more. They're all ready to help ensure you perform with greater authority and confidence.

ASTRO Digital SABER, MT 2000, MTS 2000, and LTS 2000

Remote Speaker Microphones (RSM)

These Remote Speaker Microphones are water-resistant and allow talking and listening without removing the radio from the belt or case. They have a 6-foot coiled cord assembly, 3.5mm audio jack, Push-to-Talk switch, swivel clip and quick disconnect latch. Clothing clip on the microphone back clips securely onto shirt or collar.

Remote Speaker Microphone with Emergency Button

The orange button on the microphone head can be used to signal that the operator needs help. This microphone offers high/low volume control and has a 3.5mm audio jack on the microphone head. Emergency activation from the RSM is delayed until programmed Mandown Pre-alert and Post-alert delays elapse. Depending on radio model, factory defaults or previous programming could set the delay times for as long as 8 to 120 seconds.

Extreme Noise Kits provide extra comfort and/or noise protection for users wearing surveillance accessories. Lightweight, translucent tube attaches to Motorola surveillance accessories to provide flexibility and comfort, which now includes a new quick disconnect adapter. The Quick Disconnect Adapter allows users, especially those in multiple shift operations, to easily remove or alternate acoustic tubes. Clothing clip prevents accessory from being pulled from the ear due to body movement or head rotation. For optimal performance, Extra Loud Earphones are recommended.

RLN6230A Extreme Noise Kit. Includes 2 foam earplugs. For high-noise environments.

Noise reduction = 24dB. Can be used with Clear Comfortable Earpieces. Black.

Completely Discreet Wireless Earpiece Kit

Enables users to communicate with ease, in full privacy, without visible equipment. This miniaturized receiver is discreetly hidden in the ear, where it can be worn comfortably for long periods of time. Small as it is, it offers a full range of audio functions including automatic squelch, automatic gain control and noise filtering. Average battery life is approximately 100 hours and includes an end-of-life warning signal when the battery needs to be changed. Kit includes wireless receiver, inductive neckloop, 6 spare batteries and 5 spare earguards. For use with any standard 2 or 3-Wire Motorola Surveillance Kit.

MT 2000/MTS 2000/LTS 2000

RLN4919A Replacement Earguards. 5 per pack.
RNN4005A Replacement 1.4 Volt Batteries. 6 per pack.

Ear Microphone Systems (EMS)

BDN6677A*

This compact, lightweight unit picks up sound through bone vibrations in the ear canal. The miniature earpiece leaves the hands-free and face unobscured, good for rescue and emergency personnel that must retain the ability to help, hear and speak directly to others not on the communication system. EMS may be worn with protective masks without reduction in clarity of sound. It's ideal for high-noise environments. Available in PTT or Voice-Activated (VOX). Interface Module is required and sold separately.

Temple Transducer

This headset allows the user to receive audio without covering the ear. It features an In-line PTT and noise-cancelling boom microphone. The Temple Transducer enhances communication and safety by not impairing the user's hearing of the external sound environment, such as machinery and equipment, warning and fire alarms, the intercom, traffic and even casual conversations with co-workers.

MT 2000/MTS 2000

RMN4049A* Temple Transducer

0180305J46 Training CD. For Ear Microphone System and Temple Transducer.

Rugged Temple Transducer

The Rugged Temple Transducer comes equipped with all the features of the basic model. It sports a bigger Push-to-Talk button and a larger noise-cancelling boom microphone. It is fully adjustable for different head sizes, making it comfortable for extended-wear. Over-the-head band allows users to wear helmets, hardhats and other head gear – and it really stays in place. Water-resistant boom microphone is ideal for use in blowing rain and the secure cap on PTT prevents accidental activation in mission critical situations.

MT 2000/MTS 2000

RMN5049A* Rugged Temple Transducer

*Intrinsically Safe

Temple Transducers

The receiver portion of this accessory rests on the temples and is capable of converting the receive audio from a two-way radio into sound vibration. The sound vibration is transmitted through the surrounding human tissue and bone directly into the inner ear where it is received by the user.

Cases Save Time

You'd be surprised how much time can be saved in emergencies when each user's radio is always in the same place made easy by this versatile selection of Motorola Original® carry accessories.

Leather and Nylon Carrying Cases

Motorola carry cases were developed to meet the demands of public safety and other users who operate in the most rigorous of environments. A variety of carrying accessories are available for comfort and convenience.

Leather cases are constructed of top grain, 8 ounce leather and all stainless steel hardware. High-activity cases have a swivel D-ring button and belt loop. To remove case from belt loop, rotate case 180 degrees and slide case upward, out of the holder. Case stays on belt more securely in high-activity applications while allowing the radio to swing freely with body movements.

Chest Packs and RadioPAk

These versatile carry accessories fit virtually any radio.

Lightweight and comfortable, each of these packs make an ideal companion for two-way radios.

Motorola Original® Universal Chest Pack protects the radio and provides the freedom from holding it during standby communication mode. Universal Chest Pack fits virtually any radio

HLN6602A Universal Chest Pack with Radio Holder,

Pen Holder and Velcro Secured Pouch

1505596Z02 Replacement Strap for HLN6602A/RLN4570A

Break-A-Way Chest Pack

All the features of the original Universal Chest Pack (HLN6602A) plus break-a-way tabs that allow the entire pack to be pulled off with approximately 10 lbs. of pressure.

RLN4570A Break-a-Way Chest Pack with Radio Holder,

Pen Holder and Velcro Secured Pouch.

1505596Z02 Replacement Strap for HLN6602A/RLN4570A

Universal RadioPAk™

The RadioPAk is lightweight and comfortable. Worn around the waist, it keeps radios/phones at hand. It features a separate 6 x 8 inch zippered pouch for other on-the-job necessities. Adjustable woven nylon belt fits both men and women.

RLN4815A Radio/PAk Radio/Utility Case 4280384F89 RadioPAk Extension Belt

For waists larger than 40 inches.

Waterproof Bag

HLN9985B Waterproof Bag with Large Strap

Portable Radio Hangers

Portable Radio Hangers slide over and hangs from the vehicle door panel allowing convenient, easy mounting. Radio belt clip required.

TDN9327A Portable Radio Hanger for door panels up to 2.75 inches.

TDN9373A Portable Radio Hanger for door panels 2.75 to 3.25 inches.

TDN9327A

Unlike rigid holders,
the universal-fit RadioPAk is
lightweight and comfortable.
An ideal companion for two-way radios,
as well as iDEN® portables
and cellular phones.

IMPRES™ Batteries

IMPRES batteries, when used with an IMPRES charger, provide automatic, adaptive reconditioning, end-of-life display and other advanced features. Data is stored in the battery and communicated to the charger via a unique IMPRES communication protocol which is designed to maximize talk-time and optimize battery cycle life - all automatically.

IMPRES™ Smart Energy Systems

Through the use of its advanced charging algorithm and automatic reconditioning features, the IMPRES Smart Energy System ensures maximum talk-time and optimized battery cycle life. This smart energy system automatically reconditions IMPRES batteries based on actual usage, keeping them in peak condition. Talk-time and cycle life are optimized and the need for manual maintenance programs is eliminated. Its advanced conditioning features allow batteries to be safely left on the charger for extended periods of time without incurring the damaging heat build-up which can decrease battery cycle life. In addition, batteries left in the charger are kept fully charged so they are always ready when needed. This rapid-rate, tri-chemistry charging system will also charge compatible non-IMPRES batteries and supports multiple radio platforms including SABER, XTS and HT 1000 Series portables.

Motorola Conditioning Chargers (MCC)

The MCC features Instant Fault Detection technology that detects faulty batteries in seconds. You'll know right away when a battery won't operate at peak performance - saving you time and trouble. Each unit rapidly charges NiCd and NiMH batteries and optimizes battery performance. It's patented negative pulse charging process minimizes overheating and overcharging, extending useful battery life. Batteries can be left on the charger for extended periods of time, without worry of heat build-up. Optional accessories are available that allow the MCC to be used in both AC and DC environments.

Battery Optimizing System II (BOS II)

No other battery analyzer matches the speed, accuracy, versatility and ease-of-use of the BOS II in providing powerful analyzing capabilities. Users can select from 12 pre-programmed service programs making it quick and easy to get up and running. Because the BOS II is programmable, users can create custom programs to perform a wide variety of tasks specific to individual needs. New enhancements include new navigation keys and an improved, more intuitive menu system. Regular use of the BOS II can optimize battery performance and help extend battery life, helping reduce battery replacement costs.

RLN4077A

Features 20 Degrees Fixed and 50 Degrees Swivel Angle.

RLN4078A Flat Bracket with 50 Degrees Swivel Angle.

Alarm Kit

GTX/LCS 2000

GKN6272AR External Alarm Relay Cable Kit

Mounting Bracket

GLN7317A Non-locking Bracket

Remote Mount Kits and Power Cables

Converts a low or mid-power radio from dash to remote mount. Includes 17-foot control head cable, 20-foot power cable, 40-foot power cable, control head back plate and mounting hardware, front plate for transceiver and adapter for speaker.

Laird Technologies

Laird Technologies designs and manufactures antennas to exacting electrical and mechanical specifications for critical applications in Defense, Public Safety, Transportation, Satellite, and Medical communications. These top quality mobile, portable and base antenna products utilize the latest patented technologies, lean manufacturing techniques, custom automation and vertical integration. These antennas are commonly used with wireless voice and data, asset tracking, and two-way radios, they are widely employed throughout the security, military, public safety, and other mission critical industries. Many of the Laird patented technologies offer solutions unavailable from other antenna manufacturers.

Phantom Elite®

This exclusive low-profile, stealth antenna with Patented Field Diversity™ technology etched on a circuit board is for use with VHF, UHF, Dual Band and 2.4 GHz applications. Includes antenna only and attaches to the standard NMO ¾ inch mount – sold separately.

150-155 MHz Unity Gain Phantom Elite, White
150-155 MHz Unity Gain Phantom Elite, Black
450-470 MHz 3dB Phantom Elite, White
450-470 MHz 3dB Phantom Elite, Black
806-866 MHz 3dB Phantom Elite, White
806-866 MHz 3dB Phantom Elite, Black

RDE5798A

Phantom®

Phantom true field diversity design ensures uninterrupted video and data transmissions in urban canyons and rural drop off areas 3dB MEG gain outperforms a 3dB whip in many applications. For mobile and fixed applications with NMO or permanent N female mount – sold separately.

RDE5514A

Dual Band Antennas

RDG4479A	821-869/1850-1990 MHz 3dB Dual Band Phantom, White	
RDG4480A	821-869/1850-1990 MHz 3dB Dual Band Phantom, Black	

Single-Band Antennas

	Single-Band Antennas
RAD4209A	142-160 MHz Tunable Phantom NMO mtg 60W, Black
RAD4210A	142-160 MHz Tunable Phantom NMO mtg 60W, White

821-896 MHz 3dB Phantom NMO ¾ Mount, White

A-Base

RAF4217A

Gold-plated push-pin contact provides the most corrosion resistance and power transfer over time. Longer tuning ferrule allows for greater freedom in frequency adjustment without trimming. Includes antenna only and attaches to the standard NMO % inch mount – sold separately.

RDD5410A	150-174 MHz ¼ Wave Chrome Center Tunable A-Base Whip
RDD5408A	150-174 MHz ${\mbox{\sc M}}$ Wave Chrome Center Tunable A-Base Whip with Spring
RDF5433A	806-896 MHz 3dB Chrome Open Collinear A-Base
RDD5553A	118-896 MHz ¼ Wave Chrome Tunable A-Base

ASTRO Digital SPECTRA, SPECTRA Plus, SPECTRA, MCS 2000, GTX, and LCS 2000

Antenna

Quarterwave Antennas

Quarterwaves are built with gold plated contacts for corrosion resistance and best power transfer. Stand up^{TM} grommet will not degrade over time. High spring temper rod stays straighter longer. Stainless steel corona ball stays on the rod without dissimilar metal interaction. Includes antenna only and attaches to the standard NMO $\frac{1}{2}$ inch mount – sold separately.

RAD4229A	162-174 MHz ¼ Wave Stainless Antenna
RDD5227A	152-162 MHz ¼ Wave Stainless Antenna

RDB4497A 27-54 MHz ¼ Wave Stainless Antenna

Mobile Load Coil

Low loss coil form adds dimensional and frequency stability. ABS material is injection molded around solid brass inserts to create a housing that is virtually leak proof. All silver solder joints ensure electrically and mechanically secure connections. All NMO mountable. Includes antenna and attaches to the standard NMO % inch mount – sold separately.

RDD5229A	132-525 MHz VHF Broadband ¼ Wave with spring
RDD5230A	144-174 MHz ½ Wave No ground Plane 2.4dB

Call us today to enhance your two-way radio capabilities with high-performance Motorola Original® accessories.

STREAMLINED SOLUTIONS FOR A SINGLE RADIO OR ENTIRE FLEET

Every Motorola two-way radio can be customized to suit your current and future communication needs.

All Motorola Original® accessories are built to the highest standards of quality, and are specially engineered to perfect complement your radio's performance.

So don't wait any longer to increase your productivity with optimum two-way radio performance.
