

MOTOTRBO™ OPERATIONS CRITICAL WIRELESS ACCESSORIES

UNLEASH THE POWER OF YOUR RADIO WITH BLUETOOTH® ACCESSORIES

LONG RANGE WIRELESS SOLUTIONS

Designed for customers who depend on their high power mobile radio for system connection but must work outside of their vehicle. The Long Range Wireless solution allows you to maintain critical communications even on remote job site.

ENHANCED REMOTE OPERATIONS

MAINTAIN CRITICAL COMMUNICATIONS EVEN ON REMOTE JOB SITES

SITUATION

Keep in touch even on remote job sites when you depend on your high power mobile radio but have to work outside your vehicle. You are a utility worker and need to check the meter readings. You have to park your truck about 100 meters away from the utility box due to access restrictions, yet you stay connected to your radio with your Long Range Wireless Remote Speaker Microphone. You communicate key readings immediately to dispatch. Get your job done safely and more efficiently.

SOLUTION

The Long Range Wireless Remote Speaker Microphone (RSM) pairs instantly with touch pairing to the mobile microphone with Bluetooth gateway. The Bluetooth microphone is compatible with MOTOTRBO XPR 4000 and XPR 5000 series mobile radios. The Long Range Wireless RSM works up to 100 meters away from the mobile radio, keeping you in communication where you never thought possible.

XPR 4000 Series

RLN6551 Long Range Wireless Remote Speaker Microphone Kit

COMPLETE WIRELESS SOLUTIONS

Choose from a broad portfolio of wireless Bluetooth® accessories for safer, more effective communications. Our solutions are designed to unleash your MOTOTRBO™ radio and help you discover better ways to work, wherever that may be.

LOOK PROFESSIONAL

YOUR GUESTS DEMAND NOTHING LESS

SITUATION

Two people are creating a scene in the hotel foyer. You call security, then leave your radio under the reception desk so you can head over hands-free to calm the situation down. While walking, you describe the incident to security using your business professional Bluetooth Accessory Kit. You are able to keep your focus on the incident while listening to security through your comfortable swivel earpiece and communicate back by discreetly pressing the Operations Critical Wireless push-to-talk pod in your pocket. Security quickly responds to resolve the incident before it escalates.

SOLUTION

Connect your Bluetooth enabled SL 7550 MOTOTRBO two-way radio to a Bluetooth Accessory Kit and you'll never have to cut short important conversations again.

NNTN8127

RLN6500

SL 7500 SERIES

WIRELESS CONVENIENCE

Go wireless and you're just one of the crowd. Instead of wearing your radio on your belt, hide it in a bag or even on a colleague. It's the best way to maintain totally discreet surveillance and it's unique to Motorola.

STAY HIDDEN

BLEND IN PERFECTLY WITH YOUR ENVIRONMENT

SITUATION

Inside a college basketball arena, it's your job to move freely in the crowd, monitoring students and communicating covertly with colleagues. A completely discreet wireless kit helps you blend in and avoid suspicion. With a tiny receiver hidden in your ear, a microphone under your lapel and a communications loop beneath your shirt, you can talk and listen to your radio in total privacy. Nothing is visible. You simply appear to be talking on what looks like your mobile phone.

SOLUTION

Connect your Bluetooth enabled SL 7550 MOTOTRBO portable two-way radio to a completely discreet wireless kit and maintain constant surveillance without being noticed.

NNTN8385/RLN4922/NNTN8127

SL 7500 SERIES

ENHANCED OPERATIONS

An enhanced adapter with touch pairing instantly connects your XPR 6000 Series radio to your wireless earpiece to your radio by a single touch. With faster shift changes, everyone in your team gets going quicker with the right equipment for the job.

TOUCH AND GO

YOUR RADIO IS PAIRED TO YOUR EARPIECE WITH A TOUCH AND READY TO RUN

SITUATION

It's hectic in the supply room at the start of a shift with all your colleagues setting up their radios at the same time. Touch pairing makes everything easy. Simply pick up and pair your radio with your Enhanced Operations Critical Wireless earpiece by touching the radio and earpiece together. Then head out onto the factory floor and start working immediately, without having to confirm your accessory is paired to the right radio.

SOLUTION

Connect your MOTOTRBO XPR 6550 portable radio with Enhanced Operations Critical Wireless adapter to an intrinsically safe Operations Critical Wireless earpiece and you can be confident your radio is paired and ready to work quickly.

Touch Pairing Adapter)

DRIVE SENSIBLY

KEEP YOUR EYES ON THE ROAD AND COMMUNICATE HANDS-FREE

SITUATION

On the road and your radio bleeps. Without taking your hands off the wheel or eyes off the road, you respond to radio calls using your Bluetooth earpiece and steering wheel mounted pushbutton push-to-talk. Fingertip control from the wheel means you can stay in constant communication with customers en route and remain completely safe while driving.

SOLUTION

Connect your Bluetooth enabled MOTOTRBO XPR 5000 Series mobile radio to an Operations Critical Wireless earbud and wired, steering wheel mounted pushbutton PTT and you'll never have to take your hands off the wheel again.

XPR 5000 SERIES

NNTN8125

RLN5926

BE AWARE

HEAR WITHOUT HARM AND WORK WITHOUT WIRES

SITUATION

It's the middle of a shift and with machinery running at full speed, your workplace is a noisy place to be. You need to communicate on your radio while still being aware of everything around you. XBT heavy-duty headsets connect wirelessly to your radio, suppressing noise for clearer communications. With patented SENS™ situational awareness technology, these headsets ensure you'll hear critical communications from co-workers in the field with you.

SOLUTION

Connect your Bluetooth enabled XPR 7550 MOTOTRBO portable two-way radio to an XBT heavy duty wireless headset and you'll hear everything you need to hear from clear radio communications to essential noises all around you.

RLN6490

STAY CONNECTED

YOUR COMMUNICATIONS DON'T STOP WHEN YOU'RE UNDERGROUND

SITUATION

While working in a manhole, you need to talk colleagues through a pipe blockage. With no radio reception down there, that would normally mean a trip back up the shaft, wasting precious time. Luckily, you left your radio above ground and can talk them through the problem on your intrinsically safe Bluetooth earpiece, allowing you to complete the job efficiently and safely.

SOLUTION

Connect your MOTOTRBO XPR 7550 portable radio with integrated Bluetooth to an intrinsically safe Operations Critical Wireless earpiece and you'll never be out of range underground again.
