

TELDIO EDGE GATEWAY

Efficiently and automatically receive events and trigger actions to increase safety, strengthen communication, and decrease response times.

HOW IT WORKS

The Teldio Edge Gateway (TEG) can integrate into existing infrastructure, applications, and devices to **automatically receive events and trigger actions** to radios, phones, and other devices. With an ever-growing list of built-in integrations, the TEG is compatible with a wide range of devices and applications, allowing for seamless communication and data transfer.

INPUTS

OUTPUTS

NUMEROUS INTEGRATIONS

Compatible with wide range of applications and devices to streamline communication and data transfer.

FULLY CUSTOMIZABLE

Tailor the solution to meet your specific requirements to optimize operations and increase efficiency.

VERSATILE COMPATIBILITY

Connect to legacy systems and current technologies to seamlessly bridge communication gaps.

COMPREHENSIVE SOLUTIONS

The Teldio Edge Gateway offers a variety of solutions designed to streamline communication, enhance safety, and increase productivity in a multitude of industries. From alarm management to asset monitoring, organizations are able to optimize operations and increase efficiency.

Alarm Management

Streamline Alarms and Notifications

Enhance existing building management systems, fire panels, and more by enabling real-time text, audio, and visual notifications to a variety of devices.

Worker Safety

Improve Safety and Emergency Preparedness

Use Motorola's safety apps to identify user-generated emergencies, notify response teams with timely information, and escalate as needed.

Asset Monitoring

Easily Monitor and Track Critical Assets

Maximize output and efficiency while extending the life of assets, streamlining audits and daily operations, and reducing maintenance expenses.

Video Integration

Enhance Video Surveillance Systems

Extend the reach of video surveillance systems to detect and act on or generate alarms and notifications on events, minimizing revenue loss while increasing worker safety.
