

TAKE BACK TIME WITH EVIDENCE LIBRARY®

DEVICE & VIDEO EVIDENCE MANAGEMENT SYSTEM

THE EVIDENCE LIBRARY SOLUTION

Every day, the amount of digital evidence collected by your agency increases. Your officers' time and resources to process all of this evidence does not.

Captured by a variety of sources, such as body-worn and in-car cameras, video evidence not only needs to be uploaded and stored, but also managed and shared. You need a streamlined solution that can get the job done.

Evidence Library is a powerful device and video evidence management system.

Its ability to scale to support thousands of simultaneous users, makes it ideal for small to large law enforcement agencies. Finding, managing and sharing digital evidence is easy for the most inexperienced user with its intuitive user interface. Its wide range of customizable options and user permissions makes it flexible and secure.

GET THE MOST OUT OF YOUR DEVICES

Evidence Library helps you to easily manage, configure and deploy your in-car and body-worn cameras — enabling your officers to focus on their jobs instead of on the tools they need.

KEEP TRACK OF YOUR DEVICES

Whether your agency is large or small, keeping track of devices is important for governance purposes and because they are an investment. Evidence Library enables you to view all of your agency's devices, so you know who has which camera allocated to them.

CONFIGURE DEVICES TO MEET YOUR NEEDS

Get the most out of your investment by configuring your devices. Evidence Library remembers individual preference settings such as volume level, screen brightness and camera aim, and applies them to future device check outs for that officer. A variety of settings within Evidence Library also enable you to configure devices to operate in alignment with your agency's policies and procedures.

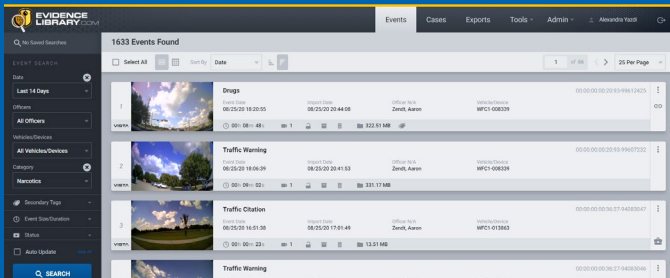

ALLOCATE DEVICES

Easily deploy body-worn cameras with Evidence Library's Rapid Check-out Kiosk. Cameras can be pooled between officers, so agencies may purchase fewer cameras than they have officers. A camera can be returned at the end of one shift, electronically reassigned and immediately checked out with a spare battery pack to another officer who is starting the very next shift.

MANAGE EVIDENCE YOUR WAY

STREAMLINE YOUR WORKFLOW FROM VIDEO CAPTURE TO COURT CASE

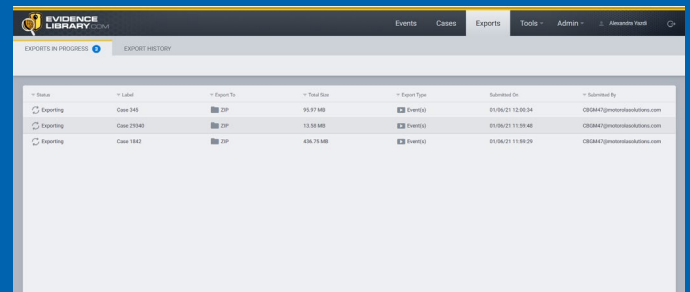

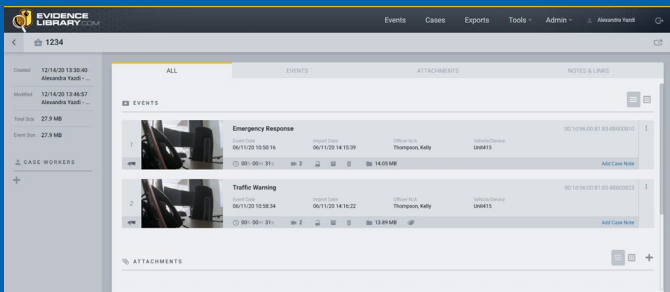

AUTOMATIC VIDEO UPLOAD

Driving out of the way to upload recorded video at an office is expensive and unproductive. Keep patrol officers on the road with automatic, encrypted video uploads from in-car systems or WiFi-enabled body cameras direct to Evidence Library in the cloud or on-premise via cellular networks like LTE and FirstNet.

SYNCHRONIZED PLAYBACK

Evidence Library automatically links video and audio captured by the integrated WatchGuard in-car and body camera system on scene, and then synchronizes playback so recorded video and audio from multiple devices can be seen and heard simultaneously.

DVD EXPORTS FOR COURT

Directly export video evidence to a DVD burner when court systems or attorneys require physical media for playback.

SCHEDULED CLEAN UP

Schedule the automatic movement, archival or purge of events daily, weekly or monthly based on retention rules you configure in the system.

SIMPLIFY YOUR SYSTEM MANAGEMENT & SECURITY

SEARCHABLE AUDIT LOG

Quickly find the data you're seeking using audit log filters such as import export, playback, download, share modify and archive dates.

CUSTOMIZABLE PERMISSIONS

Easily set-up security groups and assign users and permissions you customize to control access to data devices and system capabilities.

INSTALLATION SERVICES

Ensure peak system performance with our site and remote installations services, such as project management, installation, configuration, inspection and testing.

TRAINING & SUPPORT

Maximize operational efficiency with on-site and online training of officers and system administrators. When you need technical support, our certified engineers use the right escalation procedures to bring you a prompt resolution.

CONNECT DIGITAL EVIDENCE ACROSS THE PUBLIC SAFETY WORKFLOW

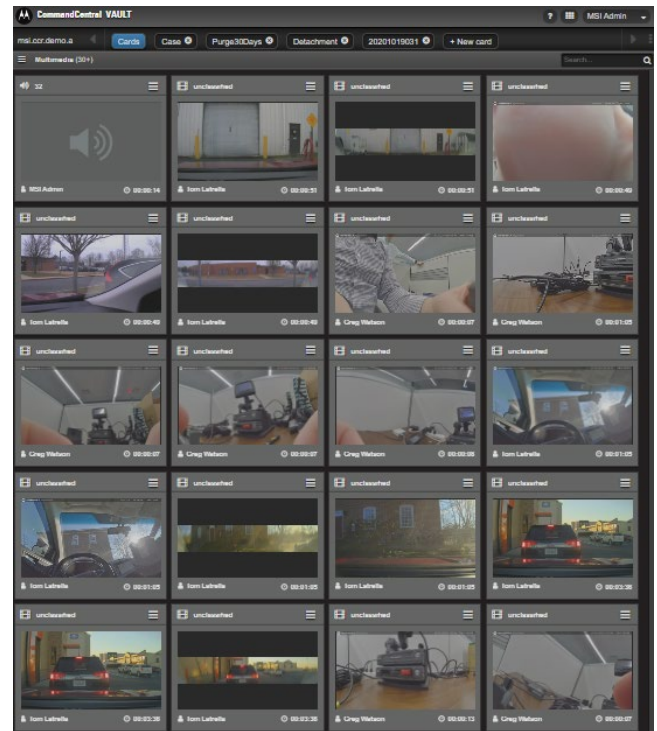

Major shifts in the information technology landscape over the years have made the collection and analysis of digital evidence increasingly important for solving crimes. This requires a comprehensive view of all case digital evidence, from a variety of sources across the public safety workflow.

PLUG INTO AN END-TO-END SOLUTION

Motorola Solutions CommandCentral is the most integrated public safety end-to-end software suite. Powered by an ecosystem that unifies voice, video, data and analytics, it ensures that information moves faster, operations are more effective and responders are safer. From call to case closure, our suite is transforming public safety with a focus on evolution, not revolution, in order to help you digitally transform your operations.

REVIEW ALL CASE DIGITAL EVIDENCE IN ONE PLACE

CommandCentral Vault aggregates and intelligently organizes all of your agency's digital content in one place — simplifying content management and streamlining workflows. The CommandCentral Vault Connector provides Evidence Library customers with access to CommandCentral. By pushing your Evidence Library media into CommandCentral Vault, you can take advantage of true, end-to-end digital evidence management functionality, including: robust, native redaction, case management and secure, centralized evidence sharing.

KNOCK DOWN DIGITAL EVIDENCE DATA SILOS

As important as it is to have the right video policing solutions in place, it's just as critical to have the digital evidence management tools to streamline the collection, capture, management and sharing of your data.

CAPTURE EVIDENCE WITH YOUR SMARTPHONE

Securely capture video, images and audio on-scene using an Android or iOS device with CommandCentral Capture.

COLLECT EVIDENCE FROM YOUR CITIZENS

Quickly gather evidence using case-specific, agency-generated links with CommandCentral Community.

CONTROL YOUR ENTIRE VIDEO SYSTEM

Easily configure cameras, provision users, define permissions and maintain audit logs with EvidenceLibrary.com.

UNIFY YOUR EVIDENCE MANAGEMENT

Intelligently organize, redact and audit all of your agency's digital evidence from one place with CommandCentral Vault.

SIMPLIFY YOUR EVIDENCE SHARING

Seamlessly view and share all case-related information from one, streamlined interface with CommandCentral Records.

COMMANDCENTRAL

The industry's most integrated public safety software suite from call to case closure.
