Scanners At-A-Glance

A BAR CODE SCANNER FOR EVERY INDUSTRY, APPLICATION AND ENVIRONMENT
When you choose Zebra bar code scanners, your workers get the performance, comfort and ease of use they need to get the job done right — and fast.

With a Zebra scanner in hand, your workers can capture the data that matters most — as fast and as accurately as possible. And whether you need bar code scanning at your retail point of sale, at patient bedside, on the manufacturing production line or in the aisles of your warehouse, we have a scanner that is right for your environment and your application.

As the world leader in the bar code scanning industry, we offer the broadest and most fully featured portfolio of bar code scanners, including rugged, handheld, hands-free, combination handheld/hands-free and fixed mount scanners as well as interactive kiosks that allow your customers to serve themselves — from checking a price to self-checkout. When it comes to scanning performance, nobody does it better than Zebra Technologies. Our scanning technology allows workers to capture virtually any bar code in a split second — whether it is displayed on the screen of a mobile phone or printed on a label that is dirty or damaged. No matter what type of data you need to capture, there is a scanner ready to do the job — including 1D and 2D bar codes, the PDF417 bar codes found on U.S. driver's licenses and other identification cards, images, signatures, RFID tags, direct part marks, the specialty bar codes on the bottom of checks (MICR) and even optical character recognition (OCR) to capture the text on documents. And our award-winning Industrial Design team delivers ergonomics that provide all day comfort, and an intuitive and easy to use design that virtually eliminates training.

FOR MORE INFORMATION ABOUT ZEBRA SCANNERS, VISIT WWW.ZEBRA.COM/BARCODESCANNERS OR ACCESS OUR GLOBAL CONTACT DIRECTORY AT WWW.ZEBRA.COM/CONTACT

Our scanners offer all the support you need with industry leading "Everything is Covered" service plans to all the tools you need to rapidly develop rich applications and make everyday management a snap.

The support you need to keep your scanners in the hands of your workers

Your Zebra bar code scanners are a critical part of your business, keeping the workday running smoothly and productively. While all of our scanners are known for their durability, accidents happen. And when they do, Zebra OneCare services provides the support you need to keep your scanners up and running at peak performance. You get unmatched support, right from the manufacturer — from experts that offer unparalleled product knowledge. With three service levels to choose from — Essential, Select and Premier — you'll find a Zebra OneCare offering that will meet your service requirements and your budget. And with global coverage, we're ready to meet your support needs, no matter where in the world your business is located. The result? Maximum uptime, a lower total cost of ownership and a faster return on your investment.

Create applications with all the features you need

We understand today's scanner applications need to do more than just handle bar code data. With the Scanner SDK, you can easily create fully featured applications. In addition to capturing bar code data, the SDK enables you to capture images, control the beeper and LEDs, easily set parameters, upgrade firmware and more. The SDK also allows multiple applications to run on one PC, talking to one or more scanners simultaneously. For more information, visit www.zebra.com/WindowsSDK.

123SCAN² Scanner Configuration Utility

123Scan² is a free, easy-to-use, Windows based software tool for configuring scanners and optimizing their performance. A patented wizard streamlines the process of configuring your scanner. In an industry first, updating firmware no longer involves lost settings that prevent your scanner from communicating with its host — 123Scan² preserves and automatically reloads your pre-upgrade settings. The utility also allows you to view scanned bar code data, capture images, view firmware release notes and access your scanners asset tracking information. To learn more, please visit www.zebra.com/123scan.

Scanner Management Service (SMS) Utility

Remotely manage your entire scanner fleet from any location and drive down scanner management costs. This robust complimentary solution allows you to remotely set parameters, update firmware and access scanner asset information and statistics. To learn more, please visit www.zebra.com/SMS.

General Purpose Handheld Scanners: **2D Array Imagers**

	Description	Corded/Cordless	Data Capture	Scan Type	Rugged Specs	Warranty
2D ARRAY IMAGERS						
DS6800 SERIES						
DS6878-SR/DL	The DS6878-SR cordless 2D imager streamlines and error-proofs everyday processes in retail and other industries. The comfortable and easy-to-use device offers laser-class speed on all 1D, 2D and PDF codes. With the optional hands-free presentation cradle, the imager can also capture signatures, documents, photos, text in documents and even the numeric information on the bottom of checks. And with optional driver's license support, you can decode and parse the information in the PDF417 bar codes found on U.S. driver's licenses, automating age and identity verification, auto-population of credit and admission applications and more.	Cordless Bluetooth®	1D, 2D, PDF, paper or electronic displays, OCR/MICR,* image capture and transfer*	Omni-directional	IP43; 6 ft. (1.8 m) drops to concrete	36 months
DS6878-HD	The cordless DS6878-HD imager gives electronics manufacturers a single affordable device capable of reading virtually every type of bar code used in electronic component assembly. The versatile device features the rapid 1D/2D scan performance of the DS6878 Series and is optimized to read high density and low contrast 1D, 2D and PDF417 bar codes.	Cordless Bluetooth®	1D, 2D, PDF, paper or electronic displays, tiny/dense 2D, OCR/MICR,* image capture and transfer,* U.S. driver's license parsing (optional)	Omni-directional	IP43; 6 ft. (1.8 m) drops to concrete	36 months
DS6878-HC	This disinfectant-ready cordless 2D imager helps prevent medical errors, improve patient safety and increase caregiver productivity. Its matchless feature set meets the unique requirements of healthcare facilities — including an intuitive and ergonomic design, Bluetooth® cordless freedom and flexible mounting options to keep the workspace free on computer — or workstation-on wheels (COWs/WOWs).	Cordless Bluetooth®	1D, 2D, PDF, paper or electronic displays, OCR/MICR,* image capture and transfer*	Omni-directional	IP43; 6 ft. (1.8 m) drops to concrete	36 months
DS6700 SERIES						
DS6707-SR	This 1D/2D imager streamlines business processes across a wide variety of industries by combining point-and-shoot simplicity with high performance scanning and image capture.	Corded	1D, 2D, PDF, paper or electronic displays, image capture and transfer	Omni-directional	IP43; 6 ft. (1.8 m) drops to concrete	60 months
DS6707-HD	This versatile digital imager gives electronics manufacturers a single affordable device capable of reading virtually every type of bar code used in electronic component assembly — including high density and low contrast 1D, 2D and PDF417 bar codes.	Corded	1D, 2D, PDF, paper or electronic displays, image capture and transfer, tiny/dense 2D	Omni-directional	IP41; 6 ft. (1.8 m) drops to concrete	60 months
DS6707-DC	The DS6707-DC takes the high performance scanning of the DS6700 Series and adds full-sized document capture. Superior document clarity enables scanning of a wide variety of documents — from medication prescriptions to bills of lading — streamlining and reducing the cost of recordkeeping.	Corded	IP43; 1D, 2D, PDF, paper or electronic displays, image capture and transfer	Omni-directional	IP43; 6 ft. (1.8 m) drops to concrete	60 months
DS6707-DP	The DS6707-DP offers the maximum in data capture flexibility, with the ability to read virtually all 1D and 2D bar codes and direct part marks (DPM). This premier general purpose scanner is ideal in industries that depend on a wide variety of data types, such as healthcare, aerospace and automotive.	Corded	1D, 2D, PDF, paper or electronic displays, DPM, image capture and transfer, tiny/dense 2D	Omni-directional	6 ft. (1.8 m) drops to concrete	60 months

* OCR/MICR and image capture and transfer supported with optional hands-free presentation cradle only.

General Purpose Handheld Scanners: 2D Array Imagers

		Description	Corded/ Cordless	Data Capture	Scan Type	Rugged Specs	Warranty
2D ARRAY IMAGERS, CONTINUED							
DS6700 SERIES, CONTINUED							
DS6708-SR/DL		This 1D/2D imager streamlines business processes across a wide variety of industries by combining point-and-shoot simplicity with high performance scanning. The DS6708-SR offers the same features as the DS6707-SR, but lacks image capture and transfer. And with optional driver's license support, you can decode and parse the information in the PDF417 bar codes found on U.S. driver's licenses, automating age and identity verification, auto-population of credit and admission applications and more.	Corded	1D, 2D, PDF, paper or electronic displays; U.S. driver's license parsing (optional)	Omni-directional	6 ft. (1.8 m) drops to concrete	60 months
DS4800 SERIES							
DS4801-SR/DL		Ready for the high-profile point of sale of today, the DS4800 Series marries chic consumer styling that is at home in the most fashion-conscious decor with innovative technologies that deliver enterprise-class flexibility, reliability, functionality and manageability. No matter what type of bar code shows up at the POS, the DS4800 Series is ready, able to scan 1D and 2D codes that are printed on paper labels, displayed on a mobile phone screen, poorly printed, damaged or high density. And with optional driver's license support, you can decode and parse the information in the PDF417 bar codes found on U.S. driver's licenses, automating age and identity verification, auto-population of credit and admission applications and more.	Corded	1D, 2D, paper or electronic display; OCR/MICR; image capture/transfer; U.S. driver's license parsing (optional)	Omni-directional	5 ft. (1.5m) drops to concrete	60 months
DS4308 SERIES							
DS4308-SR/DL		If you're looking for extraordinary flexibility and performance in your handheld scanner, the next-generation scanning technology in the DS4308 delivers. Its truly extraordinary range scans nearer and farther than any other scanner in this class. Your workers can scan virtually any bar code — 1D or 2D, electronic or printed on paper labels or plastic cards, even if the bar code is dirty, scratched or poorly printed. With PRZM Intelligent Imaging, workers can capture bar codes as fast as they can pull the scan trigger. The result? One device that can do the job of a standard and extended range scanner. And with optional driver's license support, you can decode and parse the information in the PDF417 bar codes found on U.S. driver's licenses, automating age and identity verification, auto-population of credit and admission applications and more.	Corded	1D, 2D, PDF, paper or electronic displays; OCR/MICR; image capture/transfer; U.S. driver's license parsing (optional)	Omni-directional	6 ft. (1.8 m) drops to concrete	60 months
DS4308-HD		The DS4308-HD scans the tiny dense bar codes commonly found on jewelry tags, consumer electronics and electronic components as well as standard 1D or 2D bar codes, electronic or printed on paper labels or plastic cards — even if the bar code is dirty, scratched or poorly printed. PRZM technology delivers the same lightning scanning performance as the DS4308-SR. The result? One device that can perform the job of a standard and high-density specialty scanner.	Corded	1D, 2D, PDF, paper or electronic displays, tiny/dense 2 ; OCR/MICR; image capture/transfer	Omni-directional	6 ft. (1.8 m) drops to concrete	60 months
DS4308-P		The DS4308-P offers all the features of the DS4308-SR, plus a base that provides workers with flexible handheld and presentation scanning. Users can switch between modes on the fly by simply picking the scanner up or setting the scanner down. And with optional driver's license parsing, drivers' license information can be captured and sent instantly to any backend system.	Corded	1D, 2D, PDF, paper or electronic displays; OCR/MICR; image capture/transfer; U.S. driver's license parsing	Omni-directional	IP42; 5 ft. (1.5 m) drops to concrete	60 months
DS4308-HC		The DS4308-HC brings the next generation scanning performance and versatility of the DS4308 Series to the patient bedside and other hospital environments. The ideal companion for laptops on workstation-on-wheels (WOWs) and other carts, the DS4308-HC can scan the many types of bar codes found in hospitals, including traditional paper-based, those displayed on an electronic screen, codes printed on curved surfaces such as specimen vials, high density codes printed on very small items — even if the bar codes are scratched, damaged or poorly printed. And with its special disinfectant ready plastics, the DS408-HC is built to handle the constant wipedowns required to help stop the spread of germs.	Corded	1D, 2D, PDF, paper or electronic displays, tiny/dense 2D; OCR/MICR; image capture/transfer	Omni-directional	6 ft. (1.8 m) drops to concrete; disinfectant-ready	60 months

General Purpose Handheld Scanners: Linear Imagers

	Description	Corded/ Cordless	Data Capture	Scan Type	Rugged Specs	Warranty
LINEAR IMAGERS						
LI2208	The LI2208 general purpose best-in-class corded linear imager delivers the same reliability and ergonomics of our most popular scanner, the LS2208, with enhanced features that let you scan more types of bar codes, faster and at a greater distance. The LI2208 can scan bar codes printed on paper labels and electronic bar codes displayed on the screen of a mobile phone, tablet or computer with dependable, unparalleled performance.	Corded	1D on paper or electronic displays	Single line	6 ft. (1.8 m) drops to concrete	60 months
LI4278	The LI4278 cordless best-in-class linear imager delivers unparalleled 1D scanning performance, allowing workers to scan faster and farther. A superior optical system and wide working range make scanning easier than ever and boosts productivity in retail, light industrial/manufacturing, hospitality and education.	Cordless Bluetooth®	1D on paper or electronic displays	Single line	6 ft. (1.8 m) drops to concrete	36 months

WITH OUR LINEAR IMAGERS, YOU CAN SCAN ALL OF TODAY'S 1D BAR CODES — INCLUDING ELECTRONIC BAR CODES DISPLAYED ON THE SCREEN OF A MOBILE PHONE, TINY HIGH-DENSITY CODES ON SMALLER ITEMS, AND OF COURSE, BAR CODES PRINTED ON PAPER LABELS AND LOYALTY CARDS.

General Purpose Handheld Scanners: Laser

		Description	Corded/ Cordless	Data Capture	Scan Type	Rugged Specs	Warranty
LASER SCANNERS							
LS2208		The affordable LS2208 provides fast, reliable scanning in an ergonomic, lightweight form factor. The wide working range makes this device ideal for retail, education or government settings.	Corded	1D	Single line	5 ft. (1.5 m) drops to concrete	60 months*
LS1200 SERIES							
LS1203		This affordable laser scanner handles all 1D bar codes and is ideal for small retailers. From the check-out line to storeroom, this scanner minimizes manual keying in all customer transactions and inventory processes.	Corded	1D	Single line	5 ft. (1.5 m) drops to concrete	36 months*
LS1203-HD		The LS1203-HD handheld scanner is designed for electronics manufacturers who need to scan small, high density 1D bar codes on PCB assemblies for track, trace, quality and other applications.	Corded	1D, tiny/dense 1D	Single line	5 ft. (1.5 m) drops to concrete	36 months*

* The Liquid Polymer Scan Element includes the unprecedented limited lifetime warranty.

WHAT CAN YOU EXPECT FROM ZEBRA GENERAL PURPOSE HANDHELD LASER SCANNERS? HIGH-PERFORMANCE 1D SCANNING. REAL BUSINESS DURABILITY. PLUG-AND-PLAY SIMPLICITY. AND ERGONOMICS THAT WILL GIVE YOUR WORKERS ALL-DAY COMFORT.

General Purpose Handheld Scanners: Companion Scanners

		Description	Corded/ Cordless	Data Capture	Scan Type	Rugged Specs	Warranty
COMPANION SCANNERS							
CS3000 SERIES							
CS3000 Series		The tiny CS3000 Series is affordably priced and fits in a pocket or on a lanyard. Two models offer batch mode or real-time data transmission over a Bluetooth connection. This innovative device offers a new level of affordability for 1D scanning.	Cordless Bluetooth® and batch	1D	Single line	4 ft. (1.2m) drops to concrete	12 months
CS4070 SERIES							
CS4070-SR		If your workers are using tablets, laptops and smartphones, they all share a common challenge — the consumer-grade camera used to capture bar codes makes scanning slow, uncomfortable and impossible unless the bar code is perfect. Introducing the Bluetooth CS4070, the easy way to add enterprise-class scanning to any mobile device. This affordable pocket-sized wireless device offers our most advanced bar code scanning technology, allowing your workers to capture virtually any 1D or 2D bar code in any condition in the time it takes to press the trigger. Its long range and omnidirectional scanning deliver true point-and-shoot simplicity. And the natural feel delivers comfortable no-fatigue scanning — no matter how many times a day your workers need to scan.	Cordless Bluetooth®	1D, 2D, PDF, paper or electronic displays		IP42; 5 ft. (1.5 m) drops to concrete	36 months
CS4070-HC		Bar code scanning at patient bedside is crucial in preventing deadly errors in medication administration and specimen collection. Now, you can put wireless enterprise-class bar code capture in the hands of every nurse and lab technician with the disinfectant-ready CS4070-HC. Small enough to be carried at all times, it can be tucked in a pocket or worn on a lanyard. One press of the dedicated pairing button instantly connects the CS4070-HC to Bluetooth-enabled in-room computers, workstations-on-wheels (WOWs), tablets and more. And with superior scanning technology, healthcare workers can instantly capture virtually any bar code, in any condition — 1D or 2D, electronic or printed on paper labels and plastic ID cards.	Cordless Bluetooth®	1D, 2D, PDF, paper or electronic displays		IP42; 5 ft. (1.5 m) drops to concrete	36 months

UNLOCK THE FULL VALUE OF CONSUMER-GRADE TABLETS AND SMARTPHONES WITH ZEBRA'S COMPANION SCANNERS...

...THE EASY WAY TO ADD WIRELESS ENTERPRISE-CLASS SCANNING TO TABLETS AND MORE.

General Purpose Hands-Free Scanners: 2D Array Imagers

	Description	Corded/ Cordless	Data Capture	Scan Type	Rugged Specs	Warranty
2D ARRAY IMAGERS						
DS9808 SERIES						
DS9808-SR/DL	This high performance digital imaging scanner features a one-of-a-kind hybrid form factor that provides superior comfort and ease of use in both handheld and hands-free scanning modes. With record fast swipe speeds for 1D and 2D bar codes, the DS9808-SR delivers a new level of productivity and throughput at the point of sale, and offers optional integrated Checkpoint EAS compatibility. And with optional driver's license support, you can decode and parse the information in the PDF417 bar codes found on U.S. driver's licenses, automating age and identity verification, auto-population of credit and admission applications and more.	Corded	1D, 2D, PDF, paper or electronic displays, image capture and transfer, EAS (optional); U.S. driver's license parsing (optional)	Omni-directional	5 ft. (1.5 m) drops to concrete	36 months
DS9808-LR	The DS9808-LR features the same innovative hybrid design and record swipe speeds of the DS9808 Series plus longer range (1D) scanning in handheld mode. The ability to scan as far as 18 inches/45.7 cm away makes this an ideal checkout solution for retailers that offer products too bulky or heavy to be easily removed from the cart.	Corded	1D, 2D, PDF, paper or electronic displays, image capture and transfer	Omni-directional	5 ft. (1.5 m) drops to concrete	36 months
DS9808-LL	The DS9808-LL features the same hybrid design and 1D/2D scanning performance of the DS9808-LR and adds an embedded parsing agent that lets users decode and parse the PDF417 bar codes on U.S. driver's licenses. Ideal for automating identity and age verification as well as the auto-population of forms in a wide range of applications.	Corded	1D, 2D, PDF, paper or electronic displays, image capture and transfer, U.S. driver's license parsing	Omni-directional	5 ft. (1.5 m) drops to concrete	36 months
DS9808-R	The DS9808-R is the first combination 1D/2D bar code scanner and RFID reader, as well as the first combination handheld/hands-free UHF RFID reader. The result? The extra ordinary flexibility to accommodate virtually any type of inventory management technology at the POS — all with a single cost-effective device.	Corded	1D, 2D, PDF, paper or electronic displays, image capture and transfer, Gen 2 RFID tags	Omni-directional	4 ft. (1.2 m) drops to concrete	36 months
DS9208 SERIES						
DS9208-SR/DL	The DS9208-SR presentation imager scans virtually any bar code on a variety of surfaces, from 1D bar codes on a paper label to 2D bar codes on electronic displays on mobile phones, tablets and more. The imager provides superior comfort in both hands-free and handheld scanning modes. Its contemporary design and tiny footprint can fit into even the most space-constrained, design conscious checkout stands. And with optional driver's license support, you can decode and parse the information in the PDF417 bar codes found on U.S. driver's licenses, automating age and identity verification, auto-population of credit and admission applications and more.	Corded	1D, 2D, PDF, paper or electronic displays; U.S. driver's license parsing (optional)	Omni-directional	5 ft. (1.5 m) drops to concrete	36 months
DS457 SERIES						
DS457-SR/DL	The DS457-SR delivers fast, high-volume hands-free scanning to a wide variety of applications. The tiny imager can be used as a standalone scanner or integrated into the most space-constrained products to bring world-class scanning to mobile computers, self-service kiosks, medical instruments, lottery terminals and more. The DS457-SR offers the largest working range possible on the largest variety of bar codes. And with optional driver's license support, you can decode and parse the information in the PDF417 bar codes found on U.S. driver's licenses, automating age and identity verification, auto-population of credit and admission applications and more.	Corded	1D, 2D, PDF, paper or electronic displays; U.S. driver's license parsing (optional)	Omni-directional	30 in. (76 cm) drops to concrete	36 months
DS457-HD	The DS457-HD features the same tiny footprint and stunning scanning performance of the DS457 Series. The HD model is optimized to accommodate the very tiny and dense 2D bar codes frequently found in manufacturing.	Corded	1D, 2D, PDF, paper or electronic displays, tiny/dense 2D	Omni-directional	30 in. (76 cm) drops to concrete	36 months
DS457-DP	The DS457-DP starts with the high-density scanning capability of the DS457-HD, and adds new algorithms that ensure easy reading of any direct part marks.	Corded	1D, 2D, PDF, paper or electronic displays, DPM, tiny/dense 2D	Omni-directional	30 in. (76 cm) drops to concrete	36 months
RING SCANNERS						
RS507	The RS507 adds hands-free scanning to practically any Zebra mobile computer. Superior ergonomics provide unrivaled freedom of movement and user comfort — regardless of hand size or whether gloves are worn. Stunning laser-like performance brings new levels of productivity in package handling and warehouse applications.	Cordless Bluetooth®	1D, 2D, PDF	Omni-directional	6 ft. (1.8 m) drops to concrete	12 months
SLOT SCANNERS						
DS7708	When it comes to on-counter scanning, the DS7708 offers a feature set that puts it at the top of its class for performance, ease of deployment and total cost of ownership. No matter what bar codes appear at your POS, the DS7708 can scan them all — 1D, 2D, printed and electronic — as fast as your cashiers can slide items past the scan window. With its compact design, the DS7708 can easily be installed in even the most space constrained checkout lanes. And extraordinary durability minimizes costs and protects uptime, maximizing device lifecycle and your return on investment.	Corded	1D/2D,PDF, EAS	Omni-directional	IP52	36 months

General Purpose Hands-Free Scanners: **Laser**

		Description	Corded/ Cordless	Data Capture	Scan Type	Rugged Specs	Warranty
MINI SCANS							
MS12XX		The MS12xx industrial fixed mount scanner delivers maximum versatility with both fuzzy and wide-angle versions. MS12xx FZY offers the largest working range, even on poorly printed and low contrast bar codes — making it ideal for reliable unattended scanning on conveyor belts, assembly lines and more.	Corded	1D	Single line		36 months
MS954		As one of the smallest, lightest and brightest fixed-mount scanners available today, the MS954 is ideal for space constrained applications, such as kiosks, ATMs, clinical diagnostic equipment, medical instruments, gaming devices and turnstiles.	Corded	1D	Single line		12 months

General Purpose Hands-Free Scanners: **Multi-Plane Imagers**

		Description	Corded/ Cordless	Data Capture	Scan Type	Rugged Specs	Warranty
MULTI-PLANE IMAGERS							
MP6000 Scanner/ Scale		Designed to keep high-volume POS lanes moving, this multi-plane bioptic imager can capture virtually any 1D or 2D bar code in practically any condition, with blazing speed — whether it is printed on a paper label or a plastic loyalty or gift card, or displayed on the screen of a mobile phone. A modular design allows the addition of a handheld scanner, EAS and a customer side scanner to capture mobile bar codes displayed on a shopper's mobile phone, loyalty cards and more. Expandability protects your investment, allowing you to meet future needs — for example, you can easily add an RFID reader. Available with a short, medium and long scanner bed.	Corded	1D/2D printed or electronic bar codes, EAS	Omni-directional	N/A	12 months

WITH THE MP6000, YOUR POS LANES ARE READY TO SCAN THE MOBILE BAR CODES YOUR CUSTOMERS ARE STORING IN THEIR MOBILE PHONES — ELECTRONIC BAR CODES THAT REPRESENT LOYALTY CARDS AND COUPONS.

Rugged Handheld Scanners: 2D Array Imagers

	Description	Corded/ Cordless	Data Capture	Scan Type	Rugged Specs	Warranty
2D ARRAY IMAGERS						
DS3578 SERIES						
DS3578-SR	The cordless DS3578-SR brings comprehensive, high performance data capture to harsh industrial environments. Engineered with breakthrough digital imaging technology, this scanner delivers extremely fast and accurate omnidirectional data capture of 1D and 2D bar codes. Integrated Bluetooth® lets employees move freely throughout the work environment and FIPS 140-2 certification offers government-grade security.	Cordless Bluetooth®	1D, 2D, PDF, image capture and transfer	Omni-directional	6.5 ft. (2 m) drops to concrete	36 months
DS3578-HD	The DS3578-HD combines breakthrough digital imaging technology and Bluetooth® cordless freedom for extraordinary performance and flexibility in industrial environments. Workers can capture the very tiny and dense 2D bar codes found in warehousing, transportation and logistics and manufacturing environments. Even small parts with small bar code labels can be easily scanned. FIPS 140-2 certified.	Cordless Bluetooth®	1D, 2D, PDF, tiny/dense 2D, image capture and transfer	Omni-directional	6.5 ft. (2 m) drops to concrete	36 months
DS3578-DP	The cordless DS3578-DP captures all 1D and 2D bar codes, and virtually every type of direct part mark (DPM) with extraordinary speed. Engineered with the breakthrough digital imaging technology of the DS3578 Series, this powerful device also integrates our patented, highly-advanced EZ-DPM software to enable the fast capture of the widest range of mark sizes and densities, including the hardest to read DPM codes. FIPS 140-2 certified.	Cordless Bluetooth®	1D, 2D, PDF, DPM, IUID, image capture and transfer	Omni-directional	6.5 ft. (2 m) drops to concrete	36 months
DS3578-ER	The cordless DS3578-ER features the same breakthrough digital imaging of the DS3578 Series and is optimized to scan different types of bar codes across a wide range of distances — from near contact to as far as 30 ft./9.14 m away. With this single rugged device, workers can scan 1D or 2D bar codes whether the item is in hand or on the tallest rack in the warehouse. FIPS 140-2 certified.	Cordless Bluetooth®	1D, 2D, PDF	Omni-directional	6.5 ft. (2 m) drops to concrete	36 months
DS3508 SERIES						
DS3508-SR	The rugged DS3508-SR brings comprehensive, high performance data capture to harsh industrial environments. Engineered with breakthrough digital imaging technology, this corded device delivers extremely fast and accurate data capture of 1D and 2D bar codes as well as images — making it ideal for the production line and other fast-paced environments.	Corded	1D, 2D, PDF,	Omni-directional	6.5 ft. (2 m) drops to concrete	36 months
DS3508-HD	The DS3508-HD offers the same ergonomics, reliability and high performance of the DS3500 Series and is optimized for comprehensive 2D bar code capture. Workers can capture the very tiny and dense 2D bar codes frequently found in warehousing, transportation and logistics and manufacturing environments.	Corded	1D, 2D, PDF, tiny/dense 2D	Omni-directional	6.5 ft. (2 m) drops to concrete	36 months
DS3508-DP	This powerful imager captures all 1D and 2D bar codes, as well as every type of direct part mark (DPM) with extraordinary speed. The DS3508-DP features our patented, highly-advanced EZ-DPM software to enable the fast capture of the widest range of mark sizes and densities, including the hardest to read DPM codes.	Corded	1D, 2D, PDF, DPM, IUID	Omni-directional	6.5 ft. (2 m) drops to concrete	36 months
DS3508-ER	The DS3500-ER is optimized to scan different types of bar codes across a wide range of distances — from near contact to as far as 30 ft./9.14 m away. The full range of this corded imager means workers can accomplish multiple tasks with one device, for greater productivity in warehouse environments.	Corded	1D, 2D, PDF	Omni-directional	6.5 ft. (2 m) drops to concrete	36 months

Rugged Handheld Scanners: 2D Array Imagers (continued)

Description	Corded/Cordless	Data Capture	Scan Type	Rugged Specs	Warranty
2D ARRAY IMAGERS, CONTINUED					
MT2090 SERIES					
MT2090-SD The MT2090-SD combines the simplicity of a scanner with the intelligence of a mobile computer in an ultra-ergonomic gun style form factor. 802.11a/b/g wireless connectivity enables easy scanning throughout your entire environment — ideal for picking and put-away in the retail back room as well as material tracking, quality control and error-proofing on the manufacturing floor. FIPS 140-2 certification enables compliance with the most stringent security regulations.	Corded/Cordless Bluetooth®/Cordless WLAN	1D, 2D, PDF	Omni-directional	6 ft. (1.8 m) drops to concrete	36 months
MT2090-HD The MT2090-HD offers the same features of the MT2090-SD and is capable of reading virtually every type of bar code that is used in electronic component assembly, including high density and low contrast 1D, 2D and PDF417 bar codes. FIPS 140-2 certified.	Corded/Cordless Bluetooth®/Cordless WLAN	1D, 2D, PDF, tiny/dense 2D	Omni-directional	6 ft. (1.8 m) drops to concrete	36 months
MT2090-DP The MT2090-DP captures all 1D and 2D bar codes, as well as every type of direct part mark (DPM) with extraordinary speed. Offering the wireless connectivity and ultra-ergonomic gun style form factor of the MT2090 Series, this compact device brings superior ease and user comfort to DPM applications in manufacturing and the warehouse. FIPS 140-2 certified.	Corded/Cordless Bluetooth®/Cordless WLAN	1D, 2D, PDF, tiny/dense 2D, DPM	Omni-directional	6 ft. (1.8 m) drops to concrete	36 months
MT2070 SERIES					
MT2070-SD This compact device combines the simplicity of a scanner with the intelligence of a mobile computer in an ultra-ergonomic gun style form factor. Bluetooth® cordless, corded and batch connectivity options provide the flexibility to meet a wide range of business needs in retail, warehouse and other operations. FIPS 140-2 certification enables compliance with the most stringent security regulations.	Corded/Cordless Bluetooth®	1D, 2D, PDF	Omni-directional	6 ft. (1.8 m) drops to concrete	36 months

Rugged Handheld Scanners: Laser

	Description	Corded/Cordless	Data Capture	Scan Type	Rugged Specs	Warranty
LASER SCANNERS						
LS3578 SERIES						
LS3578-ER	The LS3578-ER cordless scanner reads 1D bar codes near or far. With the widest working range available, this rugged scanner reads labels as far away as 45 feet (13.7 m) and as close as .25 inches (0.64 cm), for easy scanning of items on pallets and shelves as well as tiny bar codes on pick lists at close range.	Cordless Bluetooth®	1D	Single line	6.5 ft. (2 m) drops to concrete	36 months
LS3578-FZ	The cordless LS3578-FZ offers superior performance, reliability and ergonomics for tough industrial environments — including the yard, warehouse, distribution center, manufacturing plant or retail store. With fuzzy logic (FZ) technology, workers can rapidly and accurately read damaged, dirty and poorly printed 1D bar codes.	Cordless Bluetooth®	1D	Single line	6.5 ft. (2 m) drops to concrete	36 months
LS3408 SERIES						
LS3408-ER	The LS3408-ER corded scanner captures 1D bar codes in the harshest of conditions — even when labels are at varying distances. Featuring the widest working range available, the scanner reads labels as far away as 45 feet (13.7 m) and as close as .25 inches (0.64 cm), for easy scanning of items on pallets and shelves as well as tiny bar codes on pick lists at close range.	Corded	1D	Single line (aim dot)	6.5 ft. (2 m) drops to concrete	36 months
LS3408-FZ	The LS3408-FZ captures all 1D bar codes, even when they're dirty or damaged. This scanner features fuzzy logic (FZ) technology for fast and accurate reading of the damaged, dirty and poorly-printed bar codes typically found in industrial environments.	Corded	1D	Single line (aim dot)	6.5 ft. (2 m) drops to concrete	36 months
LS3008						
LS3008	This handheld scanner delivers affordable performance and durability in a lightweight ergonomic design that's ideal for light industrial, healthcare and retail environments. The easy-to-use device requires virtually no training and is packed with features to deliver first time, every time scanning.	Corded	1D	Single line	6.5 ft. (2 m) drops to concrete	36 months*
MT2000 SERIES						
MT2090-ML	The MT2090 Series combines the simplicity of a 1D laser scanner with the intelligence of a mobile computer in an ultra-ergonomic gun style form factor. 802.11a/b/g wireless connectivity enables easy scanning throughout your entire environment. With Zebra's signature performance, this device can capture even damaged and poor quality 1D bar codes from as close as one inch/2.54 cm to as far as 16 ft./4.87 m away. FIPS 140-2 certified.	Corded/Cordless Bluetooth®/Cordless WLAN	1D, PDF,	Single line	6 ft. (1.8 m) drops to concrete	36 months

GET THE MOST OUT OF YOUR ZEBRA SCANNER INVESTMENTS WITH

Zebra OneCare Services

Every day, your Zebra scanners help you improve overall operational efficiency and accuracy, drive down the cost of doing business and increase workforce productivity. Availability is key to the success of your business — and the return on your Zebra investment. Now, you can achieve maximum uptime and peak performance with Zebra OneCare services. You get unmatched support, right from the manufacturer — from experts that offer unparalleled product knowledge. With three service levels to choose from — Essential, Select and Premier — you'll find a Zebra OneCare offering that will meet your service requirements and your budget. And with global coverage, we're ready to meet your support needs, no matter where in the world your business is located.

Get the service level you need.

Essential and Select offers software updates and upgrades, varying levels of hardware support, technical support, repair turnaround times, and numerous options to customize your service and visibility requirements to best meet your business needs. Our Premier service is fully customizable, allowing you to select from our overall capability set and create a unique service package that bests meets your productivity and efficiency goals. All of these support services can be purchased within 30 days of your equipment purchase.

If it's broken, we fix it.

Our Zebra OneCare services are truly comprehensive. Broken display? Cracked outer casing? Damaged scanner exit window? Our plans cover it all, including normal wear and tear and accidental damage. While Zebra's hardware Warranty covers defects in workmanship and materials, with Zebra OneCare, if it's broken, we'll fix it. And when you need to return a device, we make it fast and easy — return requests can be initiated online, anytime of the day or night.

Get unparalleled from-the-manufacturer expertise.

Experienced technical support experts are ready to assist in 16 languages to resolve any issues and minimize the impact on your business operations. Our solution labs and ability to maintain your customer-specific configurations accelerate trouble resolution, so you're back in business, as soon as possible. And application support specialists can assist with migration to next generation technologies.

Zebra OneCare Essential

Zebra OneCare Essential service is our foundational service offering, with comprehensive coverage, technical support during your local business hours and 3-day turnaround time on repairs.
Zebra OneCare Select

Need a higher level of care? Zebra OneCare Select service delivers more capabilities. If a device needs repair, we ship out a replacement as soon as you notify us and prior to receiving the broken unit. No matter what time of the day or night you have a problem, our experts are ready to help. Select service provides a technical support help desk with 24x7 availability. Want visibility to better manage assets within your environment? Our cloud-based visibility service option, powered by our Asset Visibility Platform, provides the location, condition, health, usage patterns and repair history of your scanners to enhance overall productivity within your business.

Zebra OneCare Premier

Are business outcomes critical to your operation? Is the highest level of productivity essential for your business? Zebra OneCare Premier, our highest level of service, delivers a truly differentiated service experience. You choose the features you need, from customized dashboards, advanced diagnostics, 3rd party software support and proactive alerts designed around unique thresholds you select, all supported by a dedicated help desk. This level of deep operational insight allows you to integrate your operations and truly transform your business by taking full advantage of Zebra's overall service capabilities. Contact your local Zebra Technologies representative or partner to discuss how Zebra OneCare Premier can meet your specific business requirements.
